Service Area **Education**

---

Estimated Savings **£201,000**

---

### Summary

This project aims to establish community hubs that include primary school(s), nursery and community facilities in single locations.

The Education Service's Strategic Plan is to implement a community hub model across Clackmannanshire that delivers 21st century learning for children, young people and communities.

The timescale for the implementation of this programme will be dependent on a number of factors.

Potential for hub models has been identified in Alva and Tullibody (centred around Abercromby Primary) and scoping work is underway.

### Impact

This project is dependent on successful consultation with stakeholders. It offers educational benefits as well as financial savings.
