

How can our local carers support us to Keep the Promise?

By providing more local placements to allow our children to remain in their local area.

Offering a loving home to ensure children can stay with their brothers and sisters where safe to do so.

To support children to continue relationships that are important to them, where it is safe to do so.

Care givers should develop nurturing, patient, kind, compassionate, trusting and respectful relationships so that children in their care feel loved and safe.

Working as a community of carers to ensure children spend time with their siblings.
