
Report to: Place Committee

Date of Meeting: 4 November 2021

Subject: Strategic Housing Investment Plan 2022- 2027

Report by: Strategic Director (Place)

1.0 Purpose

- 1.1. To approve the Strategic Housing Investment Plan (SHIP) at appendix 1. The SHIP sets out the operational framework for affordable housing development in Clackmannanshire over the next 5 years, establishing the investment priorities.

2.0 Recommendations

- 2.1. It is recommended that Committee:

2.1.1 Approve the Strategic Housing Investment Plan for 2022-2027, including the summary 5 year programme of housing sites, detailed in Appendices 1 and 2.

3.0 Background

- 3.1. Local Authorities are required by The Scottish Government to prepare a Strategic Housing Investment Plan (SHIP) annually, setting out the strategic investment priorities for affordable housing over a 5 year period, to achieve the outcomes set out in the Local Housing Strategy. The SHIP informs the Scottish Government's housing investment decisions.

4.0 SHIP 2022-27

- 4.1. There have been delays of around 3 months on the new build programme and therefore delays in spend. The Council is tackling this by picking up on delays over the next few years by over- programming to catch up with delays. Delays last year, 2020/21, were mitigated with the purchase of 40 NHT units at Coalsnaughton, achieving over spend of £1.5 million on allocated funding.
- 4.2. Appendix 2 sets out the sites proposed for development over the next 5 years and associated spend against allocated funding.

5.0 Funding

- 5.1. The funding for 2021/22 is £6.666 million with the expected spend to be in the region of £3.15 million.
- 5.2. As reported to Committee in September 2021, the three month shut downs in 2020 had a knock on effect into this financial year. On top of this, backlog of material supplies and rising costs have further exacerbated delays.
- 5.3. Tender costs for new build have risen around 30 – 40% since March 2020. This is a challenge going forward to make projects viable within current Scottish Government grant levels. Costs in the SHIP have assumed higher levels of funding per unit as a realistic expectation based on new grant rates that have been published.
- 5.4. Projects coming in at higher than Scottish Government benchmark funding are subject to further scrutiny by SG which inevitably puts further delays on tender approval and start on site. This should be less of an issue once there is an announcement of increased benchmark funding levels going forward.
- 5.5. In order to pick up on delays, the 5 year SHIP has been over-programmed by around £9.3 million, with the expectation that an average of £1.8 million additional funding can be spent each year in Clackmannanshire. This will ensure that affordable housing will be delivered in the numbers required as we come out of the pandemic.
- 5.6. **Guidance on preparing a Strategic Housing Investment Programme states:**
'The Scottish Government would suggest that a minimum slippage factor (i.e. over-programme to accommodate unforeseen slippage) of 25% is built in to any programme planning.'

As shown at 5.7, over-spend has been calculated slightly over the minimum slippage of 25% above allocation. Should there be any shortfall in SG grant funding, Kingdom Housing Association have advised that they will be willing to deliver in advance of grant.
- 5.7. Funding and expected spend for the next five years is as follows and is detailed in Appendix 2.

<u>Year</u>	<u>Allocation</u>	<u>Expected Spend</u>	<u>Overspend</u>
2022/23 -	£5.746 million	£7.401 million	£1.655 million +29%
2023/24 -	£5.73 million	£7.800 million	£2.070 million +36%
2024/25 -	£5.75 million	£7.580 million	£1.830 million +31%
2025/26 -	£5.845 million	£7.607 million	£1.762 million +30%
2026/25 -	£5.845 million (est)	£7.782 million	£1.937 million +33%

6.0 Sustainability Implications

- 6.1. The supply of affordable housing is a central contributor to the Council's commitment to reduce carbon emissions. The projects are all built to 'Greener Standards' and the Council will pursue the inclusion of renewable energy on sites where possible.

7.0 Resource Implications

Financial Details

- 7.1. There are no funding implications from this report that will not be met from within existing resources. A report will be brought to a future meeting on detailed regeneration proposals.
- 7.2. The full financial implications of the recommendations are set out in the report. This includes a reference to full life cycle costs where appropriate. Yes
- 7.3. Finance has been consulted and have agreed the financial implications as set out in the report. Yes

Staffing

- 7.4. There are no staffing implications arising from this report

8.0 Exempt Reports

- 8.1. Is this report exempt? Yes (please detail the reasons for exemption below) No

9.0 Declarations

The recommendations contained within this report support or implement our Corporate Priorities and Council Policies.

- (1) **Our Priorities** (Please double click on the check box)

- Clackmannanshire will be attractive to businesses & people and ensure fair opportunities for all
- Our families; children and young people will have the best possible start in life
- Women and girls will be confident and aspirational, and achieve their full potential
- Our communities will be resilient and empowered so that they can thrive and flourish

- (2) **Council Policies** (Please detail)

10.0 Equalities Impact

10.1. Have you undertaken the required equalities impact assessment to ensure that no groups are adversely affected by the recommendations?

Yes

No

11.0 Legality

11.1. It has been confirmed that in adopting the recommendations contained in this report, the Council is acting within its legal powers. Yes

12.0 Appendices

12.1. Please list any appendices attached to this report. If there are no appendices, please state "none".

Appendix 1 Strategic Housing Investment Plan (SHIP) 2022-2027

Appendix 2 Affordable Housing Programme with 5 year spend

13.0 Background Papers

13.1. Have you used other documents to compile your report? (All documents must be kept available by the author for public inspection for four years from the date of meeting at which the report is considered).

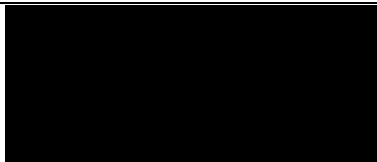

Yes (please list the documents below)

No

CLACKMANNANSHIRE COUNCIL

STRATEGIC HOUSING INVESTMENT PLAN 2022- 2027

1.0 Introduction

1.1 The Strategic Housing Investment Plan (SHIP) 2022/27 defines the priorities for housing investment, as set out in the Clackmannanshire Housing Strategy (CHS) 2018- 2023 vision, that;

"Everyone should have a safe area to live in, a well maintained house and help when they need it."

1.2 To achieve this vision through investment, our aim is to create a more effective local housing system, which delivers both economically balanced and sustainable communities. This in turn shapes our key objectives of providing the right houses, in the right location, delivering both choice and affordability.

1.3 It is worth noting that the long term strategic plans for new housing supply in Clackmannanshire remain. The Housing Need and Demand Assessment is the evidence base and continues to drive policy around providing homes for an aging population and smaller household sizes going to the future as well as providing homes for homeless households of all sizes.

1.4 Links to corporate priorities, such as the LHS and LOIP, remain and are outlined as per previous guidance notes.

1.5 In July 2021, The Scottish Government provided a 4 year Resource Planning Assumption (RPA) for Clackmannanshire totalling £23.071million.

2022/23	£5.746 million
2023/24	£5.73 million
2024/25	£5.75 million
2025/26	£5.845 million

2.0 Clackmannanshire Housing Strategy

2.1 Our Local Housing Strategy 2018-2023 identifies six priority areas and outcomes to be achieved:

- **Investing in New Housing Supply** – Quality, affordable housing is maximised.
- **Best Use of Existing Housing** - The housing we already have is optimised and effective in providing choice and meeting need.
- **Homelessness** - Households have access to appropriate housing and advice to reduce homelessness.
- **Specialist Housing and Independent Living** - Those requiring assistance to live independently at home have access to effective housing.
- **Energy Efficiency and Fuel Poverty** - Energy efficiency is improved and fuel poverty and carbon emissions are reduced across all tenures.
- **Improving Neighbourhoods and Communities** – Improve long term outcomes for local communities and target town centres for improvement and regeneration to benefit the community.

2.2 In addition to the above, the Local Housing Strategy states further broad actions which are being delivered through this investment programme;

LHS Key Actions	Progress
Work with partners including planning and Scottish Government to maximise the amount of additional homes provided across all tenures.	
Where possible, use Council land and assets to support new affordable housing.	
Use income from reduction in Council Tax discounts to support delivery of affordable housing.	
Work with RSLs to deliver new affordable housing and maximise funding from all sources.	
Continue to implement and review the Affordable Housing Policy, implemented through the LDP, including commuted sums and on-site provision of affordable housing where required.	
Promote housing development in a range of settlement centres to contribute to economic regeneration whilst addressing housing need.	
Maintain a programme to purchase existing housing for affordable rent.	
Investigate how the RSL sector can play a greater role in housing homeless applicants.	
Work with the Health & Social Care Partnership to plan and provide specialist housing for the elderly and adults with particular needs.	
Explore new models of supported accommodation for young people.	
Deliver specialist housing on all appropriate new housing developments	

3.0 Rapid Rehousing Transition Plan

3.1 The Rapid Rehousing Transition Plan was submitted to the Scottish Government in December 2018 and is being implemented by the Council. Minimising time spent in temporary accommodation and having access to suitable housing is a key priority in the RRTP and consistent with housing priorities. Specific outcomes from the RRTP to be delivered through housing investment are detailed below.

¹ Ongoing

In 2020/21 Clackmannanshire ranked 5th out of 32 Local Authorities for total time spent in temporary accommodation at 128 days. As a consequence, Clackmannanshire Council is one of only a few Local Authorities to have more households leaving temporary accommodation than entering.

Clackmannanshire performs well in quickly providing permanent accommodation solutions for those found to be homeless. Most homeless households are ultimately housed in local authority or RSL accommodation after having spent a relatively short period waiting for permanent accommodation and, in part, attributed to additional affordable housing coming forward.

Rapid Rehousing Transition Plan	Progress
Accelerate affordable housing program over 5 year period to 2024	
Investigate how the RSL sector can play a greater role in housing homeless applicants.	
Ensure levels of temporary accommodation are maintained to meet statutory responsibilities.	

4.0 Local Outcomes Improvement Plan (LOIP)

4.1 Replacing the Single Outcome Agreement (SOA), the Council and its' partners have set out their strategic outcomes for the next 10 years in the Local Outcomes Improvement Plan 2017 / 2027. Focussing on tackling the inequalities that exist in Clackmannanshire around poverty and socio-economic disadvantage, the four strategic outcomes driving strategic partnership working are:

- Clackmannanshire will be attractive to businesses and people and ensure fair opportunities for all.
- Our families, children and young people will have the best possible start in life.
- Women and girls will be confident and aspirational, and achieve their full potential.
- Our communities will be resilient and empowered so that they can thrive and flourish.

4.2 We know that poor housing has a negative impact on health, wellbeing and quality of life. Our commitment to provide additional good quality, affordable housing goes a long way to contribute to improving the life outcomes of vulnerable families by reducing inequality and disadvantage in the housing market, and making Clackmannanshire an attractive place to live.

5.0 Links to Child Poverty

5.1 Set within The Corporate Plan 2018-22 child poverty is a key Council priority. Our priorities as a Council to 2022 are:

- Inclusive growth, jobs and employability
- Reducing child poverty
- Raising attainment
- Sustainable Health & Social Care
- Empowering families and communities
- Organisational transformation

5.2 It is recognised that the SHIP has a key role to play as an enabling plan specifically contributing to 2 of the Council Corporate priorities:

5.3 Reducing child poverty - provide good quality affordable housing.

Research shows that one of the key drivers of children living in poverty is living costs and specifically housing costs. More affordable housing not only reduces direct housing costs but ensures new homes are energy efficient reducing heating and lighting costs. Improved infrastructure in new housing developments offers increased access to the internet for all.

5.4 Inclusive growth jobs and employability - increased house building.

Increased house building through SHIP programs will aim to provide local employment opportunities by contracting local companies and offering apprentice and training chances for local young people.

6.0 Links to City Deal and Transformational Change

6.2 Continuing and new priorities for the Council and its partners will be accommodated within the SHIP and the Local Housing Strategy. This will include work as part of the City Deal with Stirling Council and plans for future regeneration in Clackmannanshire.

Plans are well under way focusing on place based development and to create Transformational Zones in Clackmannanshire, beginning in Alloa. Derelict land in Alloa town centre has been utilised for a flagship affordable housing development for older people, expected to be complete in June 2022. The focus on Alloa as a well-being economy transformation zone will bring in principles of collective impact of initiatives and investment within placed-based contexts. This model will roll out to other areas of Clackmannanshire and will bring in affordable housing opportunities.

The Council has been awarded £512,000 from the Placed Based Investment Programme, 2021/22. This will go towards additional design measures required for the success of the Primrose Street, Alloa housing development to meet the strategic priorities of quality place making in the town centre.

7.0 New Housing Supply Targets

- 7.1 An updated Housing Need and Demand Assessment (HNDA) shows a reduction in the level of housing requirements since the last Assessment. This is due to a number of reasons, primarily the reversal in the population projections for 2012 showing an anticipated decline in the population to 2037. This, in turn, is influenced by a dramatic drop in new house building in Clackmannanshire since 2008. However, the past 3 years have seen an upturn in house building particularly in Alloa, Sauchie and Alva which will have an impact on future population projections and therefore housing needs are expected to rise again.
- 7.2 Up to 2020, the annual estimated need for additional affordable housing in Clackmannanshire is around 75 homes, 53 of these for 'social renting' and 22 for mid market rent. It shows 11 properties required for rent by a private landlord and 36 required for sale on the open market.
- 7.3 Social housing demand in Clackmannanshire is fairly self-contained within settlements, so the location of new developments needs to be carefully considered. Availability of housing sites does not always match housing need and demand and continuing dialogue will be sought with developers to ensure that all opportunities for affordable housing are pursued in a wide range of locations.

8.0 Housing Needs

- 8.1 Initial findings from the HNDA research confirm some specific features of demand for Clackmannanshire;
- The latest 2012 household projections to 2037 for Clackmannanshire show a fall in population.
 - Despite a falling population, 100 new households will form every year. Every one of these (100%) will be either single person or couple households, meaning additional, smaller houses are required.
 - Net outward migration of 16 to 29 year olds sits at around 100 annually, which is the highest for any age group.
 - By 2037 there will be 126% more people aged 75+, which is far above the Scottish average of an projected 86% increase, resulting in greater pressure for social care services in Clackmannanshire.
 - By 2030 the number of people over 85 years will double, with a corresponding need for suitable / adapted housing and corresponding support in the community.

9.0 Specialist Housing

- 9.1 From the Council's own records (waiting list figures and information on social service cases) there are at least 10 families known to the Council who require larger size wheelchair housing.
- 9.2 From information gathered from the 2011 Census, around 3,700 people (7% of the population) in Clackmannan have some type of physical disability. It would therefore be reasonable to aim for 7% of all social housing to be

suitable for those with some sort of physical disability, including those who require wheelchair use.

- 9.3 The Council will continue to provide an element of specialist housing on suitable sites to meet the identified needs currently on our waiting list. Over the course of the SHIP at least 10 wheelchair bungalows are planned as well as 3 wheelchair units on Primrose Street and 3 on Elm Grove, Alloa.
- 9.4 One of the main drivers of the housing market is the ageing population and their requirement for specialist housing. This is the result of older people who need care (low cost but high volume) and higher infant survival and longevity for those with a learning disability (low volume and high cost). Housing suitable for both these client groups are considered in this SHIP.

10.0 Gypsy / Traveller Accommodation

- 10.1 There is one Gypsy / Traveller site in Clackmannanshire at Westhaugh. This has now reached the end of its useful life in terms of the quality of accommodation. A virtual engagement session was held with residents in October 2020 to discuss site improvements.
- 10.2 Clackmannanshire Council was awarded £70,000 from the £2 million allocated by the Scottish Government to be used for site improvements. The residents requested that work is progressed on fencing and pitch security gates. Further improvements discussed were upgraded CCTV and broadband.
- 10.3 In addition to these improvements, the Council has been in discussions with residents to make the site a better place to live and find out how residents want to live now and in the future.
- 10.4 The Scottish Government are working on developing a design guide for Gypsy/Traveller sites that will be used for new sites or major refurbishments of existing sites, which the Council will need to meet. The Scottish Government have indicated that they are keen to create a number of demonstration projects that can establish examples of model sites, as a trial for the new design guide.
- 10.5 A budget allowance of £120,000 per pitch is assumed, based on typical costs for new build affordable housing as a comparator. If the site can hold 14 pitches, taking into consideration new fire regulations and SG future design standards, this would mean a total budget of £1.680m. The service had £240k in the capital plan for financial year 2020/21 and the service proposes rolling this forward as part of the 2021/22 budget approval process, together with creating an earmarked HRA reserve of £1.440m for the remaining amount. This reserve would be drawn down following discussions and agreement with residents on spend and investment priorities to be delivered within the budget allocation.
- 10.6 It will be the residents who will drive the approach and decisions. Moreover, this means that even without securing funding from the Scottish Government the residents have an agreed funding pot to work with. Any future SG grant received could then minimise the HRA spend. Works are planned to commence sometime in 2022.

11.0 Partnership Working

- 11.1 The Council will continue an inclusive and collaborative approach with all RSLs that are keen to work with us to deliver affordable homes in Clackmannanshire. This includes working collaboratively with Kingdom Housing Association to help deliver a strategic programme of affordable housing delivery.
- 11.2 Ochil View Housing Association has entered into a new agreement with Kingdom Housing Association to manage their development work. As such, work is on site at Elm Grove, Alloa with an estimated completion date of January 2022 for 54 new homes.
- 11.3 Primrose Street in Alloa town centre is on site to provide housing for older people. Design and specification has been worked up with input from Social Services. Engagement with Architecture and Design Scotland (a non departmental public body) advised on the design of the housing on Primrose Street and gave support with briefing on wider provision for housing for the elderly, linking to work on 'Caring Places' and 'Town Centre Living'.

12.0 The Planning Context

- 12.1 Any new housing development should address the needs of the people of Clackmannanshire, regardless of tenure. The key mechanism for this is the planning system. We are working alongside planning colleagues to create a mix of housing sizes and tenures with the aim of providing housing opportunities for all and helping to prevent market failure.
- 12.2 The Local Development Plan was adopted by Council in August 2015. This includes provision for the delivery of affordable housing, which is supported by the Housing Needs and Demand Assessment. The Affordable Housing Policy (SC2) includes that housing proposals for 20 or more homes, or over 1 hectare, will be expected to include a range and choice of house types, tenures and sizes, including affordable housing.

13.0 Particular Policy Initiatives

13.1 Council & RSL purchase of existing housing for social renting

The Council and Ochil View Housing Association maintain the commitment to make 'off the shelf' purchase a means of delivering affordable housing.

13.2 Reduction in Council Tax Discount on Empty Homes

There is around £208,000 ring fenced for use for affordable housing. This has been collected over the financial years 2016/17 to present.

This is to be utilised this financial year as follows:

- Primrose Street, £178,000 to address funding gap for enhanced design measures.
- Engelen Drive, £30,000 towards demolition costs.

13.3 Adaptations and Health & Social Care

The Housing & Social Care Group, previously named the Housing Contribution Group, who report to the Integrated Joint Board of the Clackmannanshire and Stirling Health & Social Care Partnership, have developed an action plan which will create a framework to enable the Partnership to deliver priority objectives. The action plan focuses on four key areas which will be continue to be developed. These are: governance, homelessness, mental health and older people.

- Governance – the group have amended their structure and agreed terms of reference to better reflect the scope of the group. This was informed by the action plan.
- Homelessness – the recent Scottish Government policy, Rapid Rehousing, which encourages a change in the use of temporary accommodation by local authorities, sees the introduction of Rapid Rehousing Transition Plans. A five year plan was submitted to the Scottish Government detailing how Clackmannanshire have already reduced our use of B & B accommodation and our main concerns to be addressed to allow us to meet National policy goals. Any relevant changes to current working practices will be reflected in the Action Plan.
- Mental Health – Housing and Social Work have been working closely to develop a greater understanding of different client groups with mental health issues and learning disabilities. This work has informed planning for new affordable housing by ensuring that specific client needs can be flexibly incorporated into the design stage of new homes.
- Older People – The Health & Social Care Partnership is working closely with Housing in the planning and development of new core and cluster housing for older people in Alloa Town Centre.

14.0 Resources

14.1 Completions 2020/21

Site	Developer	No Units	Grant 2019/20	Status
NHT Coalsnaughton	KHA	40	£3,171,000	Complete
Off The Shelf		10	£315,000	Complete

50

A total of 50 off the shelf purchases added to stock in 2020/21.

14.2 RPA and additional Spend 2020/21

The table below shows all spend drawn down in 2020/21.

A total of £8.137 million has been allocated to Clackmannanshire for affordable housing in 2020/21 against a RPA of £6.541 million,

Site	Developer	No Units	RPA Spend 2020/21	Estimated Status	Est completion
Primrose Street, Alloa	Kingdom HA	60	£0	Site Start 2020	June 2022
Elm Grove, Alloa P1	Ochil View HA	33	£2,207,059	Site start June '20	March 2022

		280	£7,800,421		

New Supply

14.1 Former FV College, Sauchie

The developer is on site and delivered 10 units for affordable housing in the first phase of the development, the second phase of 24 units is scheduled for completion in January 2022.

14.2 Primrose Street, Alloa

This site will deliver 60 flats with flexible layout to facilitate changing needs of an aging population, including technology enabled infrastructure and the A&DS principles of Town Centre Living: A Caring Place. The site was granted £4.9 million in Allia Bond funding from the Scottish Government which gives additional funding to Clackmannanshire for the delivery of this site over and above what has been granted for RPA funding. Due for completion June 2022.

14.3 Elm Grove, Alloa

This site, owned by Ochil View, will provide a mixed tenure development, including social and mid-market rent to assist with the ongoing regeneration

of the area. The current layout shows 55 properties on the site which had a delayed start date of June 2020, due for completion March 2022.

14.4 Engelen Drive, Alloa

In June 2018, elected members agreed that two blocks of Council owned flats be redeveloped as a pilot for wider demolition and regeneration plans stated in the SHIP. Demolition has been delayed due to construction down time and negotiations on the electricity sub station on site.

Funding has been secured for the demolition through Council Tax second homes money and commuted sums. Site start is delayed to 2022/23 and is expected to require higher than benchmark funding.

14.5 Park Street, Tillicoultry

Land has now been purchased by the Council and is being assembled to allow Kingdom to develop 7 units on the site, adjacent to the popular recent development of amenity bungalows.

Site investigation is underway and due to start on site in 2022/23 and complete in same year.

14.6 Lochies Road, Clackmannan

This small site in Clackmannan will compliment the wider regeneration of the town centre. The preference for the site will be for low level specialist bungalow style housing.

14.7 Lower Mill Street, Tillicoultry

This site has been in the LDP for a long period without coming forward due to flood concerns. Work has been done to enable viability for development and a total of 74 properties could be built on the site over 3 phases. The site has been delayed due to higher than expected costs. Kingdom owns the land and is expected to get back on site 2022/23 with the first units complete by 2023/34.

14.8 Glentana Mill, Alva

The site is in Council ownership and was approved for transfer to HRA for development for affordable housing by Council on 24 October 2019. Initial investigations indicate the site would be capable of around 40 units.

14.9 Bedford Place, Alloa

Bedford Place, Alloa has previously been used by Clackmannanshire Council as an education facility. It was deemed unfit for purpose in 2020, with major structural issues. The Council are expected to approve disposal for use for affordable housing. Initial feasibility studies show it can deliver around 33 affordable homes.

14.10 Sauchie West, Sauchie

This site is capable of up to 1,000 units over the next 15 years. The Council will continue to work with the developer to provide suitable affordable housing on the site over the course of the build.

14.11 Carsebridge Road, Alloa

This site is currently being worked up and is planned for around 600 homes, 25% of which to be affordable. A site start is planned for 2022/23.

15.0 Shadow Programme (Potential Sites)

15.1 It is inevitable that some priority sites will not be deliverable for various reasons, such as ground conditions or financial viability. To help avoid slippage in the main programme, or in the event of additional Scottish Government funding being made available, potential sites are included in the 'shadow' programme. These sites may be substituted or added to the main programme, should the opportunity arise.

15.2 This approach allows additional flexibility to help ensure that the number of units and spend in Clackmannanshire is maximised. Below is a list of sites identified to date, however, it should be noted that the Council and its RSL partners are actively looking for further opportunities. Other proposals, including purchasing units from a developer, may be brought forward in addition to those listed.

15.3 Forest Mill

The section 75 agreement sets a requirement for 22% of the 1,250 homes to be affordable. There are no affordable homes programmed by the developer in phase 1 or 2, so it is likely that it will be several years before affordable housing can be expected on this site.

15.4 Old Primary School Site, Tullibody

As the Tullibody School campus is constructed, this may enable opportunities for further social housing development on for example, the St Bernadette's site.

15.5 Brook Street, Alva

This site had previously been brought forward in the programme, but due to site constraints has been delayed. We will continue to work with the land owner.

16.0 Units in Addition to Affordable Housing Supply Programme

16.1 North Street / Main Street, Clackmannan

The Council has received regeneration funding for the site with 2 old shop units on Main Street and the former print works on North Street, now

demolished. Site investigation is underway and the tender process for construction is issued with work aiming to start early2022. The redevelopment will provide 4 retail and 5 residential units.

17.0 Consultation

17.1 This document has been developed by housing and planning colleagues in consultation with local RSLs and Scottish Government officials.

18.0 Ensuring Equalities

18.1 An equalities impact assessment is carried out on each SHIP. The SHIP has no negative impact on the six equality groups; in fact it is likely that these groups will benefit from a positive impact.

19.0 Strategic Environmental Assessment

19.1 The SHIP is part of the LHS, which had a pre-screening as required by the Environmental Assessment (Scotland) Act 2005. Clackmannanshire Council as a "responsible authority" for the purpose of the Act has determined that no SEA submission is required for this document. Specific environmental issues will be considered as part of the Local Development Plan process or when planning applications for sites are submitted.

SHIP 2020-25 PRIORITIES FOR INVESTMENT

Definitions of Criteria for Priorities

Effective Land Supply	Listed in the Local Plan as a site that can be developed for housing. No known constraints.
Regeneration / Town Centre Area	The site is situated within an area identified through the SIMD as a regeneration area or an identified Town Centre site, as identified in the LHS.
High Demand Area	Little or no social housing in the area or high demand / low turnover of existing social housing. <i>LHS Action: 'Maximise the impact of new housing, including affordable housing in areas of demand.'</i>
Homeless Needs	The site will provide accommodation for at least one homeless household. <i>LHS Action: 'Reduce Homelessness and homeless households have access to appropriate housing.'</i>
Particular Needs	The site will provide at least 10% of particular needs accommodation. <i>LHS Action: 'Deliver specialist housing on all appropriate new housing developments.'</i>
Planning Permission	The site has planning permission for housing.
Creating Mixed Communities	The site will provide a desirable balance of tenure in the wider area or will provide a mix of types of houses for different households within the site. <i>LHS Action: 'Promote and increase low cost home ownership and shared equity schemes with public funding to promote tenure diversification.'</i>
No Land Constraints	Land has no infrastructure blockages.
Resources Available	Are there resources available now ie human resources or financial resources. <i>LHS Action: 'Work with local Housing Associations to deliver new affordable housing and maximise funding from their resources.'</i>
Value for Money	The site is capable of delivering the units with benchmark HAG funding or below. <i>LHS Action: 'Continue to develop and support innovative and flexible models for providing cost effective new housing.'</i>
Deliverable Now	If the site meets 8 or more of the above criteria, it will be considered to be deliverable now.
Deliverable Within 5 years	If the site meets 6 or more of the above criteria, it will be considered to be deliverable in the coming years when resources become available.
